### 1) Apologies for Absence

Rupert Reid, Sally Duckett, Tim Lomax

### 2) Minutes of the last meeting

The minutes were agreed and signed as a true record of the meeting by DA (Chair)

### 3) Matters arising

There were no matters arising.

### 4) Updates from Working Group Leaders on Actions taken forward following meeting with Aaron Smith on 13<sup>th</sup> November

#### a) Housing – DN

1. DN commented that following the NDP & Working Group meeting with Aaron Smith, he came away with the impression that only the Pirbright site was being considered by the NDP for development. **This was confirmed to be the case by DA.**

AG raised the point that the exception to this may be the Downland Practice Surgery and asked if the NDP Steering Group would support the augmentation of medical facilities being considered by the Practice – **it was agreed that this would be supported by the Group.**

2. Affordable Housing – DN queried if the figures for those expressing an interest in affordable housing during the SDP survey were still valid - did we need to undertake additional work to update them. He had recently spoken to Catherine Judd (WBDC) and Tim Parry (CCB) who may have more detailed information and put suggested that it may be helpful to speak to Sovereign Housing to explore how affordable homes might be provided.

#### Action:

- **SG** to contact Aaron to ask if figures would be deemed valid or needed updating.
- **DN** to contact Sovereign to invite them to a meeting of the NDP Steering Group

3. House Parking - DN recommended that numbers of parking spaces for each dwelling on the new development should be one more than the current WBDC requirement

#### b) Business – CS

No further action taken as was waiting for updated report to comment.

c) Communities, Education and Facilities – AG

1. Facilities - after considering funding that may be available as a consequence of the new development it did not appear that it would meet the costs of building a new community facility/village hall. However, there could be potential to develop the footprint of existing buildings to enhance facilities available for sport, pre-school etc. It was recommended that a Statement should be put in the final report that following the approval of the NDP a new working group would examine alternatives.
2. Education – AG reported that previous contact had been made with local schools but information was still required.

**Action:**

- **AG** to contact Chris Prosser, Executive Headteacher to discuss impact of development on school numbers and any likely issues.

d) Environment & Greenspaces – TL

No report

e) Roads & Transport – PM

1. PM reported two key issues – traffic calming measures and parking, particularly around Burrell Road, Manor Crescent and Westfield with pinch points around the Schools, Village Hall, Surgery and Shop.

**Action:**

- **PM** will write a draft report for discussion with the Roads & Transport Working Group and will then forward to Aaron Smith.
